

Civic Ensemble presents “Fertile Grounds” at The Soil Factory

Address: 142 Ithaca Beer Dr, Ithaca, NY 14850

Directions from downtown Ithaca to the Soil Factory - you have two options from Ithaca:

1. From West State Street, turn left onto 13A / Floral Drive. Continue for 1.9 miles. Turn right on Ithaca Beer Drive. There is a large red sign for the Ithaca Beer company on your right at this turn. Continue straight along a gravel road until you reach the Soil Factory - a warehouse building closest to the meadow. Parking attendants will direct you to parking spaces.
2. Take Route 13 South out of Ithaca for just shy of two miles, past Buttermilk State Park. You will reach the intersection with 13A where there is a stoplight. Just past the light is Green Tree Garden Supply on your right. Take an immediate right turn after Green Tree Garden Supply onto Brewery Lane. Head down the short hill and veer left onto the gravel road adjacent to the Soil Factory. Parking attendants will direct you to parking spaces.

Please note that the Soil Factory is a repurposed warehouse building. There is a paved parking area and guests who need to park close to the door may do so. Guests who are able will be asked to park a short distance from the building on a dirt or gravel area. Please only park in directed parking areas. The building temperature tends to be slightly cooler than outdoors. If the evening is cool, it will be cool inside. Please dress accordingly and bring a sweater!

There is a composting toilet (outdoor porta-potty) for guest use during the performance. This bathroom is not wheelchair accessible. For accessibility questions, please contact Julia Taylor at 607-241-0195 or julia@civicensemble.org
